SUPPLY CHAIN MANAGER

ABOUT THE COMPANY
Persistent Systems is a growing business that develops Mobile Ad hoc Networking (MANET) wireless radio systems for US Government and commercial applications. The radios are typically worn on the person, mounted to manned vehicles, integrated into autonomous unmanned vehicles, or installed at fixed sites. The systems provide on-the-move data, voice, video, and situational awareness capability. Located in the heart of New York City, Persistent Systems is an exciting company that is passionate about delivering cutting edge products.

JOB DESCRIPTION
Persistent Systems is seeking an experienced operations leader to manage its supply chain. As both an original equipment manufacturer and a full communications solution supplier, Persistent Systems’ supply chain operation spans the globe and includes over 75 manufacturers, distributors, and service providers. The Supply Chain Manager reports directly to the CEO and works closely with the Manufacturing, Quality, Engineering, Accounting, and Business Development departments to ensure that Persistent Systems delivers its customers’ orders on time with industry-leading quality!

POSITION RESPONSIBILITIES
• Own the supply chain process – forecasting, purchasing, scheduling, expediting, receiving, and inventory management
• Ensure supplier on-time delivery of raw materials and inventory items to support manufacturing operations and guarantee delivery of customer orders on schedule
• Qualify new suppliers and maintain approved supplier database, participate in periodic Supplier Quality/Delivery Audits
• Lead quarterly and annual inventory processes, work with Accounting to resolve discrepancies and update perpetual inventory
• Lead vendor competitive bid process for new hardware requirements
• Assist with new product development and other operational and engineering objectives

QUALIFICATIONS / EXPERIENCE
• 5+ years of leadership experience in supply chain, manufacturing, or operations
• ISO9001:2008 quality system experience (operations, procedures, documentation)
• Ability to operate independently and prioritize workload effectively
• Knowledge of wireless communication systems (commercial and military)
• Experience in product lifecycle management from initial design to mass production
• Strong knowledge of Microsoft Office and excellent written communication skills
ADDITIONAL ASSETS

- Lean Six Sigma Certification
- Quickbooks / ERP / MRP
- SolidWorks
- Electrical or mechanical engineering background

EMPLOYEE BENEFITS
Persistent Systems offers a full suite of benefits including medical, dental, vision, disability, and life insurance. We provide multiple plans to suit your individual need. We also offer a matching contribution retirement plan, flexible spending plan, commuter transit program, and a generously discounted gym membership to Equinox.
